Attention: Mr. Ken Rone

Subject: Electrical Project

Dear Ken:

We have reviewed the proposal by Midland Electric dated February 13, 1989 to revise the medium voltage connections at the Coal Mill area. Their proposed method and connections should work very well. We will approve this as submitted. The proposed junction box should be adequate to allow good workmanship on the splice preparation.

Please let me know when they plan to install the new cable. I will be travelling to Vancouver, B.C. on February 25th and returning on March 1st. I could stop by the plan on March 1st as I return if you feel it would be beneficial.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Mark C. Wirfs'.

Mark C. Wirfs, P.E.  
Electrical Engineer
